

РАБОТА С ФОРМУЛЯРИ

проф. д-р Георги Тупаров

Департамент “Информатика”

INFM210 Тема 9

Пролетен семестър 2022/2023

ФОРМУЛЯРИ - FORMS

Формуляр

- Вграден начин за въвеждане на данни в APEX
- Не е необходим PL/SQL код

ПРИМЕР FORM VIEW

Form View

- Създайте празна страница с име **Form View**, ID 29 и връзка в менюто към нея.
- В нея създайте регион с име **Browse Employees** и тип Form.
- SQL код:

```
select EmpNo, EName, Job, Sal, DeptNo  
from EMP  
order by 2
```
- Трябва да се зададе кой е ПК, иначе се генерира грешка

The screenshot shows the 'Identification' and 'Source' tabs of the Oracle APEX Form Builder. In the 'Identification' tab, the 'Title' is 'Browse Employees' and the 'Type' is 'Form'. In the 'Source' tab, the 'Location' is 'Local Database' and the 'Type' is 'SQL Query'. The 'SQL Query' text area contains the following code:

```
select EmpNo, EName, Job,  
Sal, DeptNo  
from EMP  
order by 2
```

The screenshot shows the 'Source' tab of the Oracle APEX Form Builder. The 'Form Region' is 'Browse Employee' and the 'Column' is 'EMPNO'. The 'Data Type' is 'NUMBER'. The 'Query Only' toggle is turned off, and the 'Primary Key' toggle is turned on.

Form View - результат

- (Column Span 4)

Browse Employees

Empno

Ename

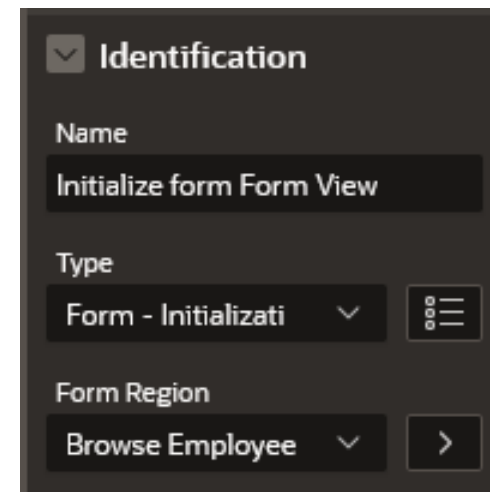

Job

Sal

Deptno

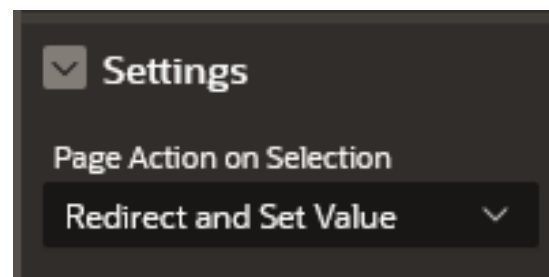

Процесът Initialize form Form View

- Създава се автоматично
- Стандартно име Initialize form <име на страницата>
- За да се избира коректно EmpNo се създава Select List със source
`select EName, EmpNo
from EMP
order by Ename`
- Установява се Settings

The 'Identification' panel shows the following configuration:

- Name:** Initialize form Form View
- Type:** Form - Initializati (with a menu icon to the right)
- Form Region:** Browse Employee (with a right arrow icon)

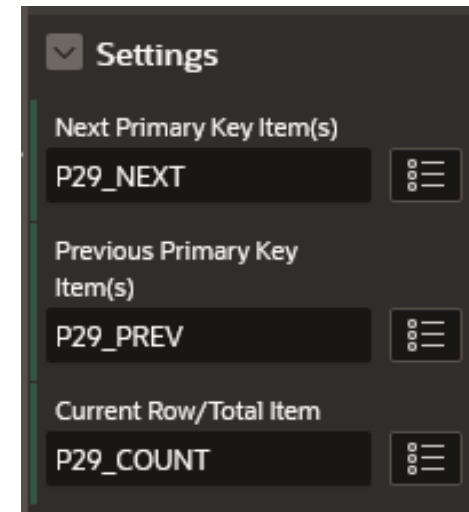

The 'Settings' panel shows the following configuration:

- Page Action on Selection:** Redirect and Set Value (with a dropdown arrow)

Бутоните Previous и Next (1)

- Създайте P29_NEXT и P29_PREV Hidden полета
- Създайте Text поле P29_COUNT
- Установете стойностите в Settings на процеса както е на фигурата

Бутоните Previous и Next (2)

- Създайте два бутона Previous и Next
- Установете в Behavior – Redirect to Page in this Application
- Направете съответните настройки за двата бутона
- За бутона Previous установете Server-side Condition

The screenshot shows the 'Server-side Condition' configuration dialog. It has a 'Type' dropdown set to 'Expression' and a 'Language' dropdown set to 'PL/SQL'. The 'PL/SQL Expression' text area contains the code `:P29_PREV is not null`.

The screenshot shows the 'Link Builder - Target' configuration dialog. It has a 'Target' section with 'Type' set to 'Page in this application' and 'Page' set to '29'. Below this is a 'Set Items' section with a table for defining item values.

Name	Value
P29_EMPNO	&P29_PREV.

At the bottom of the dialog are buttons for 'Clear / Reset', 'Advanced', 'Cancel', 'Clear', and 'OK'.

ПРИМЕР FORM UPDATE/DELETE

Form Update Page

Update Employees

DeleteUpdate

Choose Employee

▼

Job

▼

Sal

Dept

▼

Insert Employees

Insert

Ename

Job

▼

Mgr

▼

Sal

Dept

▼

Form Update (1)

- Създайте празна страница с име Form Update, номер 30
- Създайте регион тип Form с име Update Employees
- Source SQL query

```
select EmpNo, Job, Sal, DeptNo from EMP
```

- Установете EmpNo за ПК
- Template за EmpNo – Optional, за останалите Optional-Above
- Установете типа на EmpNo, Job, DeptNo на Select List

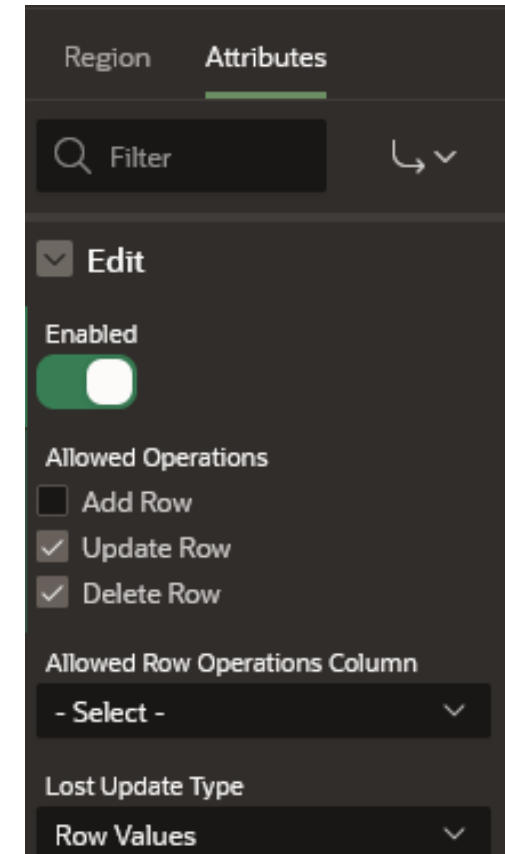

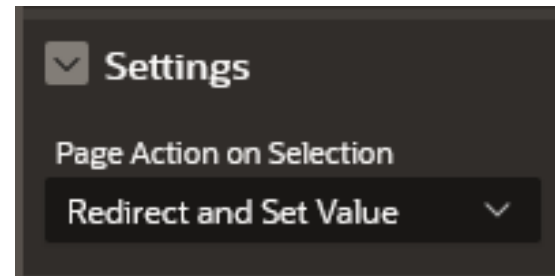

```
select EName, EmpNo from EMP
```

```
select distinct Job as DisplayVal, Job as ResultVal from EMP
```

```
select DName, DeptNo from DEPT
```

Form Update (2)

- За EmpNo се задава
- Създайте два бутона Delete и Update, с action Submit, position Edit
- За Update Employees Region установете

Form Update (3)

- Автоматично се създава процес Process form Update Employees
- Установите за двата бутона съответния action
- За процеса установите

Identification

Name

Server-side Condition

When Button Pressed
- Select -

Type
Expression

Language
SQL

SQL Expression
:REQUEST = 'Update' or
:REQUEST = 'Delete'

Form Update (4)

- За изтриване на Session State създайте процес ClearEmpNo с настройки
- Sequence на процеса трябва да е по-голям от този на Process form

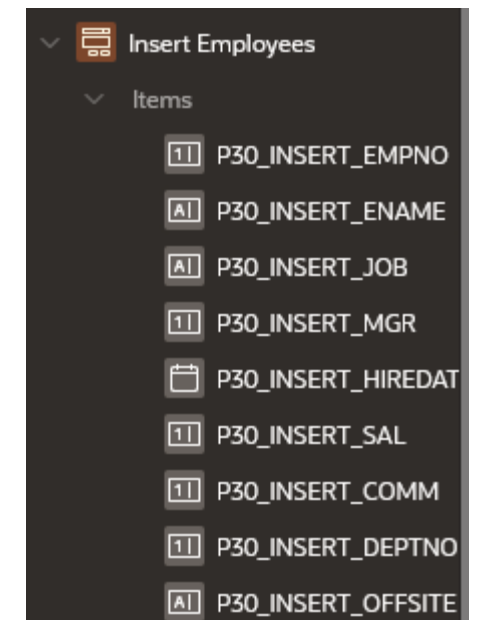

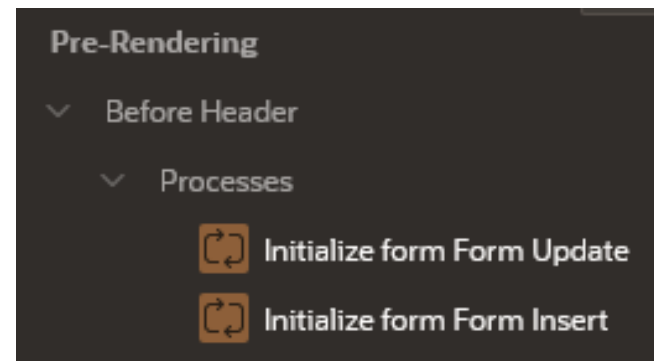

The screenshot shows the configuration for a process named 'ClearEmpNo'. The 'Identification' section has 'Name' set to 'ClearEmpNo' and 'Type' set to 'Clear Session Stat'. The 'Settings' section has 'Type' set to 'Clear Items' and 'Item(s)' set to 'P30_EMPNO'. The 'Execution Options' section has 'Sequence' set to '50' and 'Point' set to 'Processing'. A green dashed box highlights the 'Sequence' field.

The screenshot shows the 'Server-side Condition' section. The 'When Button Pressed' dropdown is set to 'Delete', and the 'Type' dropdown is set to '- Select -'. A green dashed box highlights the 'When Button Pressed' dropdown.

ПРИМЕР FORM INSERT

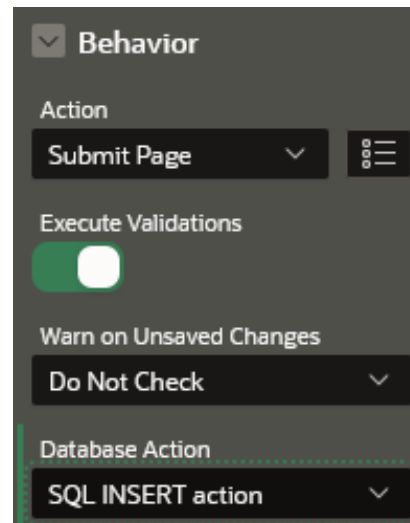

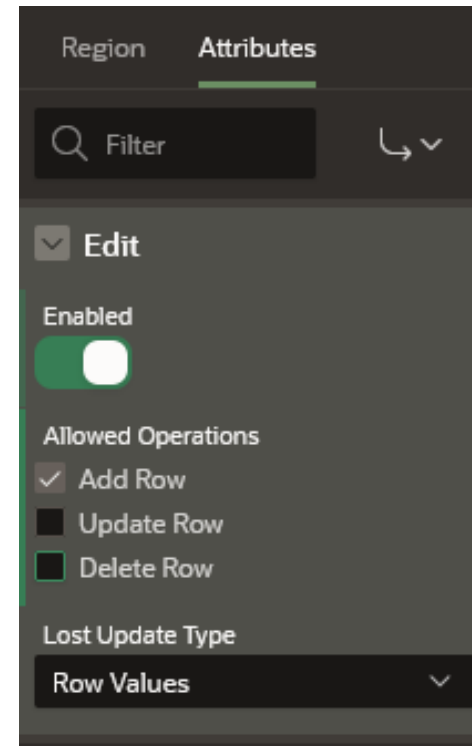

Form Insert (1)

- Създайте нов регион Insert Employees със source `select * from EMP`
- Променете имената на всички полета както е на фигурата за да избегнете дублиране
- Задайте ПК за P30_INSERT_EMPNO
- Променете името на инициализиращия процес, за да избегнете дублиране

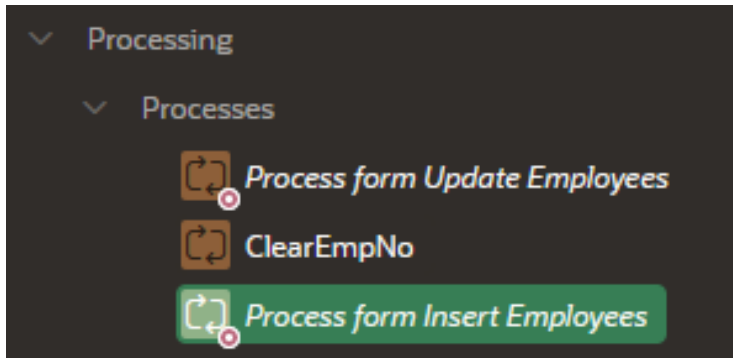

Form Insert (2)

- За новата форма задайте
- Създайте бутон Insert, position Edit, Action property Submit Page Database Action property SQL INSERT

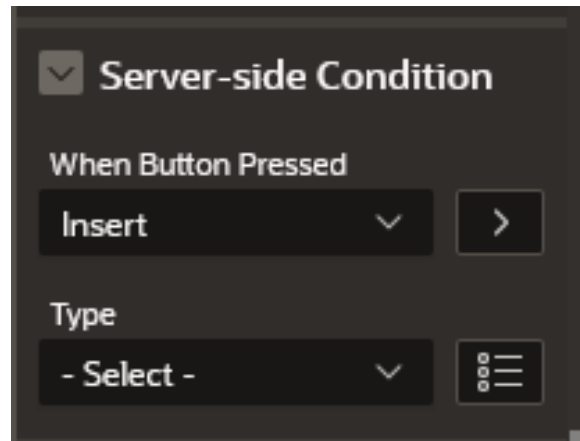

Form Insert (3)

- За

- Задайте

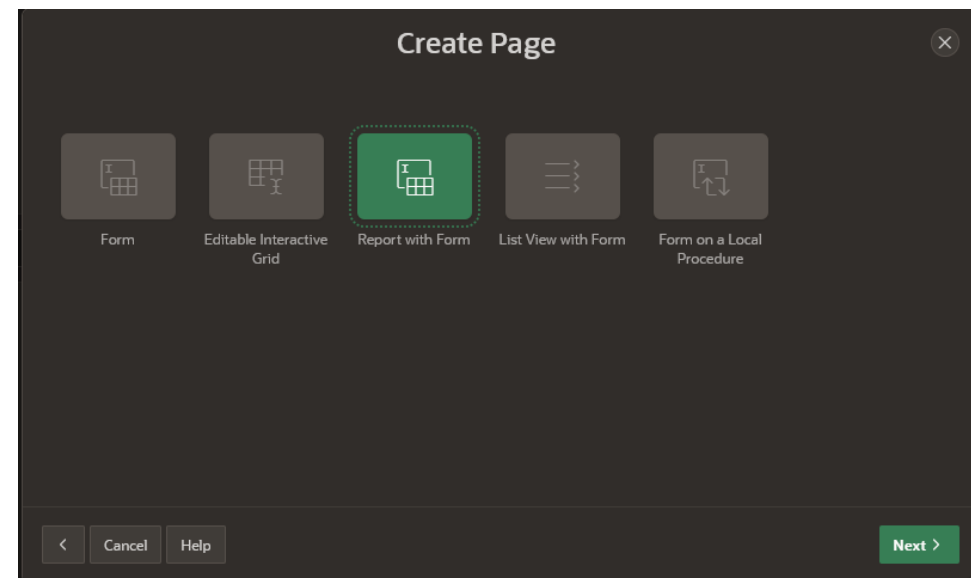

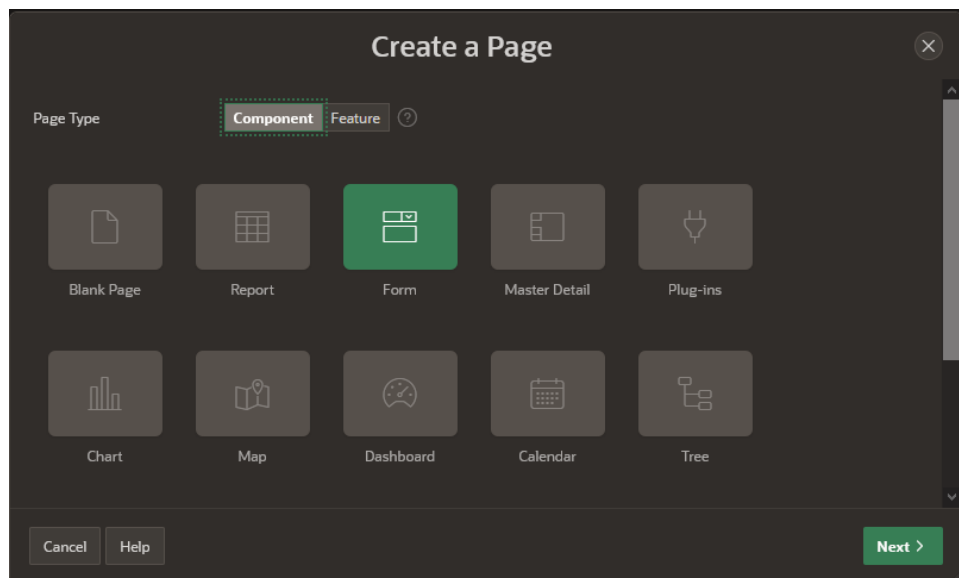

- Форматирайте елементите на формата по ваша преценка

ПРИМЕР REPORT WITH FORM PAGES

Report with Form wizard (1)

- Използване на помощник

Report with Form wizard (2)

- Използване на помощник – стъпка 2 е пропусната

Create Report with Form

Page Attributes

Report Type: **Interactive Report** | Interactive Grid | Classic Report

* Report Page Number: 31

* Report Page Name: Report with Form 1

* Form Page Number: 32

* Form Page Name: Report with Form 2

Form Page Mode: **Normal** | Modal Dialog

Page Group: - Select Page Group -

< Cancel Next >

Data Source

Data Source: **Local Database** | REST Enabled SQL Service | REST Data Source

* Source Type: **Table** | SQL Query

* Table / View Owner: GEORGETT

* Table / View Name: EMP

* Select Columns to be shown in the report

EMPNO (Number)	ENAME (Varchar2)
MGR (Number)	JOB (Varchar2)
HIREDATE (Date)	SAL (Number)
COMM (Number)	DEPTNO (Number)
OFFSITE (Char)	

< Cancel Next >

Report with Form wizard (3)

- Използване на помощник

The screenshot shows the 'Create Form - Columns and Primary Key' wizard, step 4 of 4. The progress bar at the top indicates that steps 1, 2, and 3 are completed (green checkmarks), and step 4 is the current step (green circle). The title bar of the wizard is 'Create Form - Columns and Primary Key' with a close button (X) on the right.

The main instruction is 'Select Columns to be displayed in the form' with a help icon (?). Below this is a list of columns from the EMP table:

Column Name	Column Type
ENAME	Varchar2
JOB	Varchar2
SAL	Number
DEPTNO	Number
EMPNO	Number
MGR	Number
HIREDATE	Date

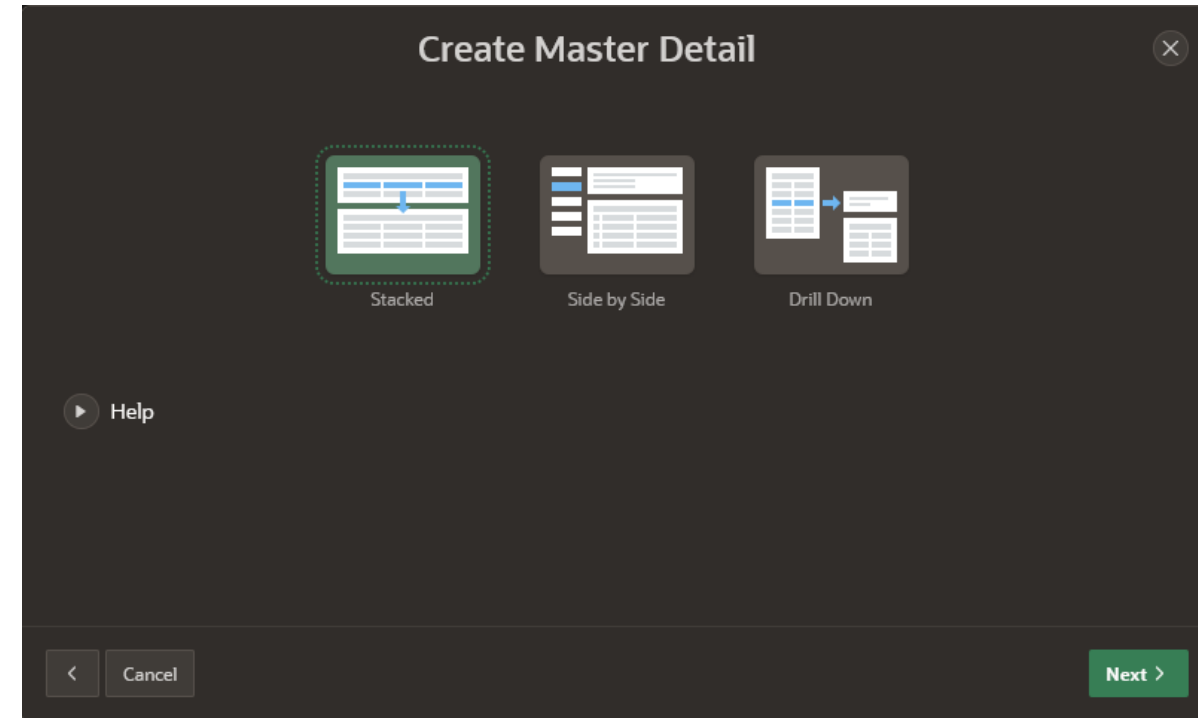

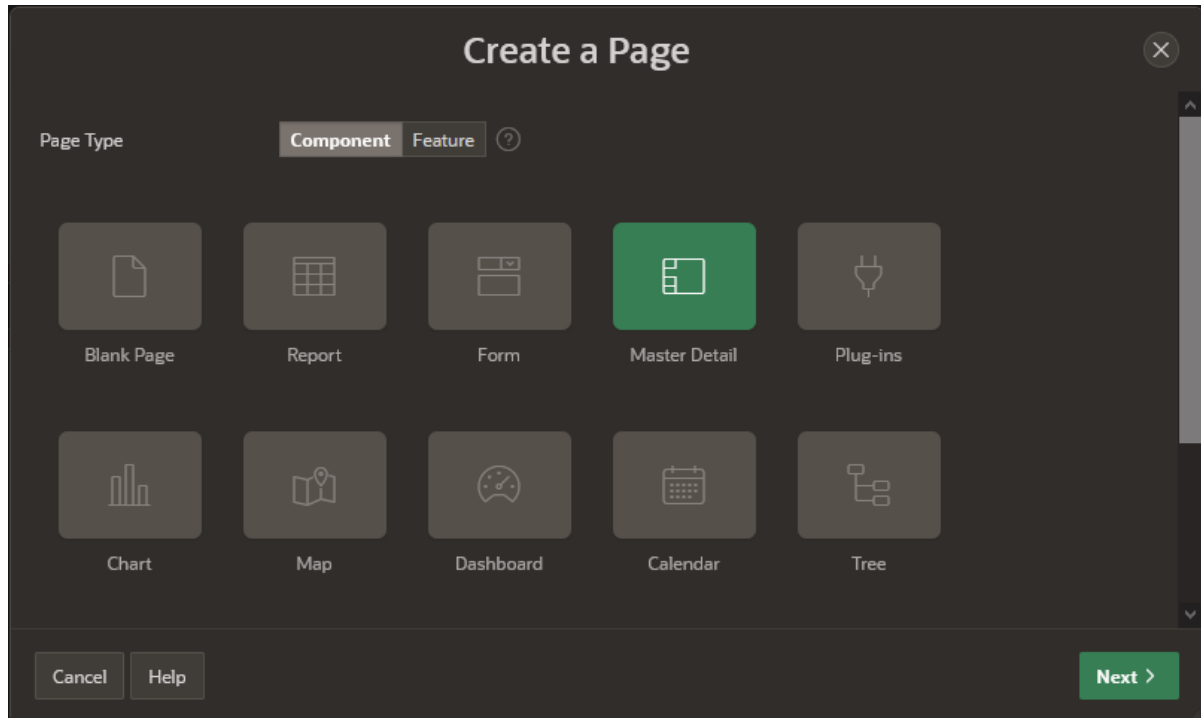

Navigation buttons (left arrow, right arrow, up arrow, down arrow) are present on the right side of the column list.

Below the column list, the 'Primary Key Type' is set to 'Select Primary Key Column(s)' (indicated by a green dot). The 'Primary Key Column' is set to 'EMPNO (Number)'. The 'Secondary Key Column' is set to '- Select Column -'.

At the bottom, there are three buttons: a back arrow, a 'Cancel' button, and a green 'Create' button.

ПРИМЕР MASTER-DETAIL FORMS

Master-Detail Forms (1)
